SCORES DRIVEN FROM HOMES BY A CLOUDBURST

Factory District of Hornell New York is Under Water

FLOOD EXTENDS 40 MILES DOWN VALLEY OF CANISTEO

Firemen and Policemen Rescue Residents From Inundated Homes

(Associated Press Telegram) Rochester, N. Y., March 14.—Scores of families have been driven from their homes and all industries in Hornell are paralyzed as the result of a disastrous flood due to a cloudburst that swept down the valley of the Canisteo early this morning, inundating one-third of the city.

The entire factory district is under water and many buildings have been damaged to the extent of many thousands of dollars. Firemen and policemen have been working for hours in boats rescuing residents from their inundated homes. So far as is known no lives have been lost. The flood extends forty miles down the Canisteo river valley, almost to Corning. Rain continued late this morning and the water is still rising.

Soon after the storm broke and a flood was threatened the girls in the Hornell telephone exchange sent warnings to persons living in the danger districts, probably saving many from harm and possible death.

WATERS ARE RECEDING.

(Associated Press Telegram) Charleston, W. Va., March 14.—The crest of the flood in the Kanawha river reached here this morning with the gauges registering 36 feet and at 9:30 o'clock the United States engineers office reported the waters had commenced to recede.

MORE THAN MILLION DAMAGE.

(Associated Press Telegram) Detroit, March 14.—Damage estimated at more than a million dollars has been wrought in lower Michigan by the tremendous rain fall of the past 24 hours. In some districts railroad traffic has been abandoned. Eaton Rapids reported heavy property damage this forenoon after the Grand river overflowed its banks. In the outlying sections of Detroit flood conditions prevail.

Reports from nearly every important city in lower Michigan told of damage from floods. Two bridges were swept away near Ypsilanti, and more than a quarter of a million dollars' damage was wrought in the Jackson-Ypsilanti-Ann Arbor district. Interurban and steam-road traffic was seriously affected and wire communication was intermittent.

No casualties have been reported but many people have been obliged to leave their homes.

FORECAST FLOOD STAGES.

Pittsburg, March 14.—Flood stages in the Monongahela and Ohio rivers here were forecast today by the weather bureau, although a specific prediction was withheld until the noon reports from up-river points had been compiled.

AMERICAN WAS INJURED IN THE PARIS AIR RAID

(Associated Press Telegram) Paris, Tuesday, March 12.—A sergeant in the quartermaster's department of the American army, who was acting as a chauffeur for the department in Paris, was injured slightly in last night's raid.

In a hospital in Paris six persons were killed and seven injured by bombs dropped by the German airplanes. The official statement on Monday night's air raid says in part: "The number of victims of last night's bombardment is now known. In Paris twenty-nine were killed and fifty injured; in the suburbs five were killed and twenty-nine injured. Unfortunately, to these must be added sixty-six others who were crushed to death by a crowd in a panic at the entrance to the Metropolitan subway where they were seeking refuge. These last victims of German barbarism are almost all women and children. One hospital was damaged seriously by bombs which killed six and injured seven. "The points where the bombs fell, both in Paris and in the immediate neighborhood, were not very numerous."

"During the raid four German aviators were brought down within our lines. Three of these were of the Gotha type. One of the Gotha machines was destroyed by fire and the pilot and crew burned to death."

Two policemen were killed and three injured in Monday night's raid. One of the wounded policemen was awarded the military medal.

WATCHES GIRLS AT ALL CANTONMENTS

Miss Maude E. Minor

The protective work for girls which the war department commission on training camp activities is maintaining at the various encampments is under the direction of Miss Maude E. Minor, New York City, long prominent in social work. She has 55 women deputies working at the camps.

NOTED PREACHER IN ADVENTIST FAITH DIES AT AGE OF 104

(Associated Press Telegram) Stafford Springs, Conn., March 14.—Elder Morse, long a circuit preacher in the Adventist faith, died today. He had lived until May 18 he would have been 104 years old. A long and busy life without illness he had attributed in part to abstention from alcohol and tobacco. Elder Morse joined the Adventists in 1834 and was ordained in the Millerite branch. For sixty years he preached and his last sermon was at Springfield camp ground in 1911. A son in Akron, O., and a daughter survive.

ENOUGH DYNAMITE FOUND TO BLOW UP HALF OF HOG ISLAND

Washington, March 14.—Enough dynamite to blow up half of the great ship yard at Hog Island has been found there during February, Dudley R. Kennedy, manager of the industrial relations department, told the senate investigating committee today and secret service men have been unable to find who placed it there.

The testimony was brought out by Senator Nelson, of Minnesota, who asked Kennedy whether the American International Corporation had had any difficulty with spies.

"I hesitate somewhat to make the statement at a public hearing," said Kennedy, "but the fact is we found 245 pounds of dynamite on the grounds last month. That amount intelligently placed would have been enough to blow up one-half the yards. Twenty pounds were found in one place, the remainder being hidden in different parts of the yards."

Kennedy, who is on the government payroll at \$12,000 a year, told the committee his profession is that of an industrial engineer. Replying to Senator Nelson, Kennedy said: "An industrial engineer is one who makes a study of labor and communicates to labor and capital the aims and purpose of each."

Kennedy's testimony was largely in justification and a defense of the large expenditure of government money.

"EAGLES" NOT FORDS. Washington, March 14.—Henry Ford's submarine-chasers will be known in the navy as "Eagles," and will constitute the "eagle class" of boats. The announcement was made today by the navy department. People from over the country have been writing to the department suggesting names for the craft and all have been given consideration.

TURNER SIGNS CONTRACT.

Cleveland, March 14.—Terry Turner, veteran infielder of the Cleveland American league, who has been rated as a holdout, today signed his contract and left with the second squad of players for the training camp at New Orleans. Pitcher Jim Bagby has not yet signed his contract.

CANDIDATES IN TRAINING CAMP ARE RESTLESS

Anxiously Await Word As to Whether They Will Receive Commissions

MAY BE GIVEN SPECIAL DUTY FOR THE PRESENT

Change In Plans For Rifle Work at Chillicothe Camp

(Associated Press Telegram) Camp Sherman, Chillicothe, O., March 14.—With but five weeks of training remaining, officers and candidates of the third officers' training school here are anxious to hear the number of men who will receive commissions, and when they will be given their commissions, but so far no word to this effect has been received from Washington. With the announcement of plans to start sending increased increments of the second draft to training camps it is believed that there will be an early need for many additional commissioned officers.

At present, however, there is no assurance that any of the 700 candidates now in training here will be commissioned as second lieutenants when the school closes April 19. Officers stated that in cases no commissions are granted immediately following the ending of the course of instruction certificates of proficiency might be granted to those candidates who had successfully completed the work.

Men now in school will be sent back to their original organizations at the close of the 15 weeks, unless they are commissioned. These men who volunteered will probably be assigned to special duty until such time as they are commissioned.

The continuous rain of the past few days will probably cause a change in the plans of the school for target work on the rifle range. The officers and instructors of the school had originally planned to take the 500-infantry candidates to the range to live for the entire period of their target work. The heavy rains have made the ground so wet that officers have practically decided to cancel their plan, rather than take chances with pneumonia among the men, who were to have lived in their pup-tents.

Construction of the suspension bridge over the Scioto river to the east of the camp to afford easier access to the rifle range has been delayed by the inability to secure cable of the proper size. The anchorage and approaches to the bridge have been completed and all of the materials have been collected. Cable manufacturers profess to be unable to supply the requisition for the cable.

Material is being accumulated for the construction of pontoon bridges which will be used until such time as the cable can be secured. Officers state that timbers of the proper size are so scarce that it is difficult to get sufficient material of the size desired. Members of the 317th engineers are in charge of all bridge-building.

Three additional deaths were reported at the base hospital today, the week's toll so far one of the heaviest in the history of the cantonment. Howard E. Young, 25, a private in Company H, 322nd infantry, died late last night from measles which developed into broncho-pneumonia. His body has been shipped to his former home at East Sparta, O. Albert Senler, 22, a private in Battery E, 322nd light field artillery, died early this morning from scarlet fever. His body has been sent to his former home at Osborn, O. The third death was that of Edward Palmer, 23, a private in the 13th company of the fourth training battalion, from lobar-pneumonia. His remains have been shipped to Giddings, Tex., his former home.

Company E, 308th engineers, and Company M, 329th infantry, were released from quarantine for scarlet fever today, while Company B, 330th infantry and the headquarters company of the 329th infantry were reported quarantined for the same contagious disease.

Germany dreams of India always. She sees the day when she can wrest the vast territory from England. The map shows two routes by which the Germans hope to reach India. The black line across Russia and Persia and which goes down through Persia and through Baluchistan is the second. The other dotted line from the Mediterranean to the Persian gulf is the once-dreamed of Bagdad Railway line.

CYCLONE SWEEPS HENRY COUNTY, O.

Napoleon, Ohio, March 14.—Two buildings and several residences in this city were unroofed early today when a windstorm of hurricane proportions swept Henry county.

Sheds, chimneys, trees and fences went before the wind. The high fences at the fair grounds were razed and a steel corn crib on the ground was carried 60 feet.

Near Florida a number of barns were unroofed. At Grelton and Malinta barns were unroofed and moved from their foundations.

70 IN PERSHING CASUALTY LIST

(Associated Press Telegram) Washington, Mar. 14.—General Pershing's casualty list cabled today carries the names of 70 soldiers, four of them killed in action, two dead of wounds, one dead of an accident and nine of disease, 14 wounded severely and 40 slightly wounded.

ALLIES' POLICIES ARE BEARING FRUIT SAYS EX-PREMIER

(Associated Press Telegram) New York, March 14.—That "many want peace at any price," that the "starvation policy of our enemies has to a certain extent borne fruit," that "hardships are increasing from day to day," and that "it is becoming daily more difficult to maintain the fortitude necessary to carry on the war to a successful termination," were statements made by Count Julius Andrássy, former Hungarian premier, in the Hungarian chamber of deputies on Feb. 6, according to German newspapers received here.

Count Andrássy in opening his speech, said that the constitution party of which he was the leader, had been dissolved and that the great majority of the members would enter the newly organized government party. Emphasizing the necessity of forming a strong united government party, Count Andrássy said:

"It is the duty of every patriot until an honorable peace has been achieved, the conclusion of which does not depend on us, to enhance the inherent strength of the nation which must hold out as long as the nation must fight for its existence."

"Many desire peace at any price. That would be the greatest crime against the nation. And those elements who are trying to incite such a peace would suffer the most from it. "All classes of society, notably labor, would suffer severely. It is in the interest of all strata and classes of the population that the war not end in the collapse of the nation."

Reviewing the Russian peace aims and declaring that he was convinced the Bolsheviks were not serious in their peace intentions, Count Andrássy concluded:

"We must arouse among all the people the consciousness that this government is imbued entirely with the spirit of the new age and that this government knows that only that state is able to exist in which the masses are satisfied and in which the governing circles are determined to safeguard the great moral, material, ethical and hygienic interests of the masses."

DUTCH SHIPS TO BE TAKEN OVER BY THE ALLIES

Netherlands Government is Given to Next Monday to Reach Decision

FINAL COMMUNICATION HAS BEEN PRESENTED TO HAGUE

Owners to Receive Liberal Compensation For the Loss of Any Ships

(Associated Press Telegram) Washington, March 14.—After months of delay and unsuccessful negotiation with the Netherlands, the United States and Great Britain have decided to take over on March 18 for all used all Dutch ships in allied ports unless the Netherlands government accepts an agreement to that purpose before that time.

This will bring practically a million tons of ships to the aid of the allies at a time when they are sorely needed.

The Netherlands minister, August Phillips, had an engagement with President Wilson today and it was expected he would present from his government a final appeal that the action be delayed or at least modified.

There are no indications, however, that the allied governments will recede from their decision. In fact, a final communication is understood already to have been presented at the Hague by the British and American diplomatic representatives.

In addition to being recompensed for the loss of any of the ships the Dutch are to receive liberal compensations in export privileges of breadstuffs which they need badly.

German pressure is expected to deter the Netherlands government from accepting the agreement the allies propose and the taking over of the ships under international law is looked upon as a logical solution and not entirely an unfortunate one for Holland.

Officials and diplomats here have no fears that the taking over of the Dutch ships will force Holland into the war as has been predicted in some quarters. They are certain that Holland will continue her policy of neutrality.

The taking over of all the Dutch fleets is the greatest move of its kind since the beginning of the war.

It is the full intention of the allies to use the ships in all the zones, although it was proposed under the original agreement that they should not be sent into the war zone.

Some eighty Dutch ships are already in the American service under a three months agreement with Holland. Taking over the tonnage would abrogate this arrangement.

TAKE PRECAUTION TO SAFEGUARD RIGHTS OF THE SHIP OWNERS.

(Associated Press Telegram) London, March 14.—Because of the long delays in the negotiations with Holland over Dutch ships in allied ports and the slowness of the Dutch government to act in this respect Great Britain and the United States have reached an agreement to end the negotiations and take over all such ships next week for the use of the allies.

Every precaution will be taken to safeguard the rights of the owners. The ships will be insured and armed and any ships sunk will be replaced at the earliest possible time after the war.

ENGLISH EDITOR IS FOOD BOSS

Kennedy Jones

There has been some complaint by members of parliament against the tendency of the government to put newspapermen in big positions in England. Premier Lloyd-George recently defended his choices and landed the work of editors in various positions. One who has "made good" is Kennedy Jones, director general of the food economy department of the ministry of food. He was one of the founders of the London-Daily Mail and editor of the Evening News.

ARMIES AWAITING SIGNAL TO CLASH ON FRENCH FRONT

(Associated Press Telegram) British Front in France and Belgium, Tuesday, March 12.—This has been another day of ideal fighting weather, but there has been no change in the situation. The British and German military machines are tuned up to the finest pitch and probably as nearly perfect as it is possible to make them are still awaiting the signal which will send them crashing against each other.

Meanwhile the artillery pounds away in thunderous duels at various points and myriad airmen are busy bombing, photographing, and acting as eyes for the respective armies.

The British airmen have been doing marvelous work recently. The first 10 days of March, as a whole, have been among the best yet recorded for the service. During that period, in addition to a vast amount of photographing and reconnoitering the British officers destroyed 39 German airplanes and brought down 40 others out of control, despite the fact that the first two or three days of the month were so stormy that aerial activity was virtually impossible.

Against this great total, 15 British machines are reported missing.

Yesterday another fine record was made, but the official figures are not yet available.

There have been many air-battles and virtually all have occurred behind the German lines, which means that the British airmen have been carrying the aerial war vigorously into the enemy's territory. Of the German machines destroyed, all but two were sent crashing down back of the German lines.

The amount of photograph work that has been done is amazing and a large number of the pictures were taken at close quarters.

Bombing raids by British aviators have been almost continuous. One of the most successful expeditions was that against three enemy air-dromes on March 9. This raid was carried out by a large number of machines during the daytime. A British aerial fleet arrived at an hour when numbers of German machines about to start were standing in a field near their hangars. The British attacked at a height of 400 feet and because of their altitude were able to shoot with disastrous effect.

Several buildings were set on fire and direct hits were observed among the German machines.

AMERICAN GIRL MAY BE VICTIM

(Associated Press Telegram) Rockville Center, L. I., March 14.—Among the victims of the latest air raid in Paris was Miss Minona C. Martin of this village, a Y. M. C. A. canteen worker, according to a report received here today. Miss Martin was 28 years old, and was formerly librarian of the Carnegie library here. She left for France a few weeks ago.

Relatives of Miss Martin said they had no confirmation of the report which added that she was among six women killed when the Claude Bernard hospital in Paris was hit by the German air-raiders.

NEWARK BOYS IN ACTION ON FRENCH FRONT

Members of Rainbow Division Which Repulsed German Raid

WARMLY CONGRATULATED BY COMMANDER FRENCH ARMY

General Pershing Sends Back Word to War Department

(Associated Press Telegram) Washington, March 14.—American troops that repulsed the German raid of March 5 were from the Forty-second, or Rainbow division, which is made up of National Guardsmen. General Pershing reported today.

The commander of the American division was personally congratulated by General Gerard, commander of the Eighth French Army, for the manner in which the Americans conducted themselves.

General Pershing's message, as given out by the war department, follows: "Summary of activities of Forty-second (Rainbow) Division front, night of fourth and fifth of March: Enemy attempted trench raid early morning, March fifth. Raid was repulsed with losses to the enemy. Our losses reported light, no missing or prisoners. General Gerard, commanding division, French army, congratulated division commander on way in which the troops repulsed raid."

The German raid on the night of March 4-5 was reported in the French official statement of March 5 in a paragraph which read: "In Lorraine, a German raid on trenches held by American troops was repulsed."

An Associated Press dispatch from the American front dated March 6 mentioned this operation as follows: "The German raid in this new sector occurred on Monday night, a sharp fight taking place in which the Germans suffered heavy losses. In it a unit which was among the most recent arrivals displayed the customary American fighting energy and apparently gave the enemy a much warmer reception than he expected."

It is probable that Newark men are not only on the front line but have seen some real action. It is also very probable that they were among the members of the 42nd or Rainbow division mentioned in today's dispatches as receiving congratulations from the commander of the French army for the way in which they conducted recent raids and repulsed the Germans.

All volunteers, over fifty Newark men joined the old Fourth regiment of National Guards, leaving Newark for Columbus and later for Camp Perry. They were assigned with the regiment to Camp Mills, and were among the first to complete the work necessary for going into the front-line trenches.

ARMED BANDITS ROB CAMP KILLING ONE WOUND TWO OTHERS

(Associated Press Telegram) Cleveland, March 14.—One man was shot to death and two others seriously wounded early this morning when nine bandits and six members of a railroad construction gang engaged in a bloody battle in Maple Heights village near here.

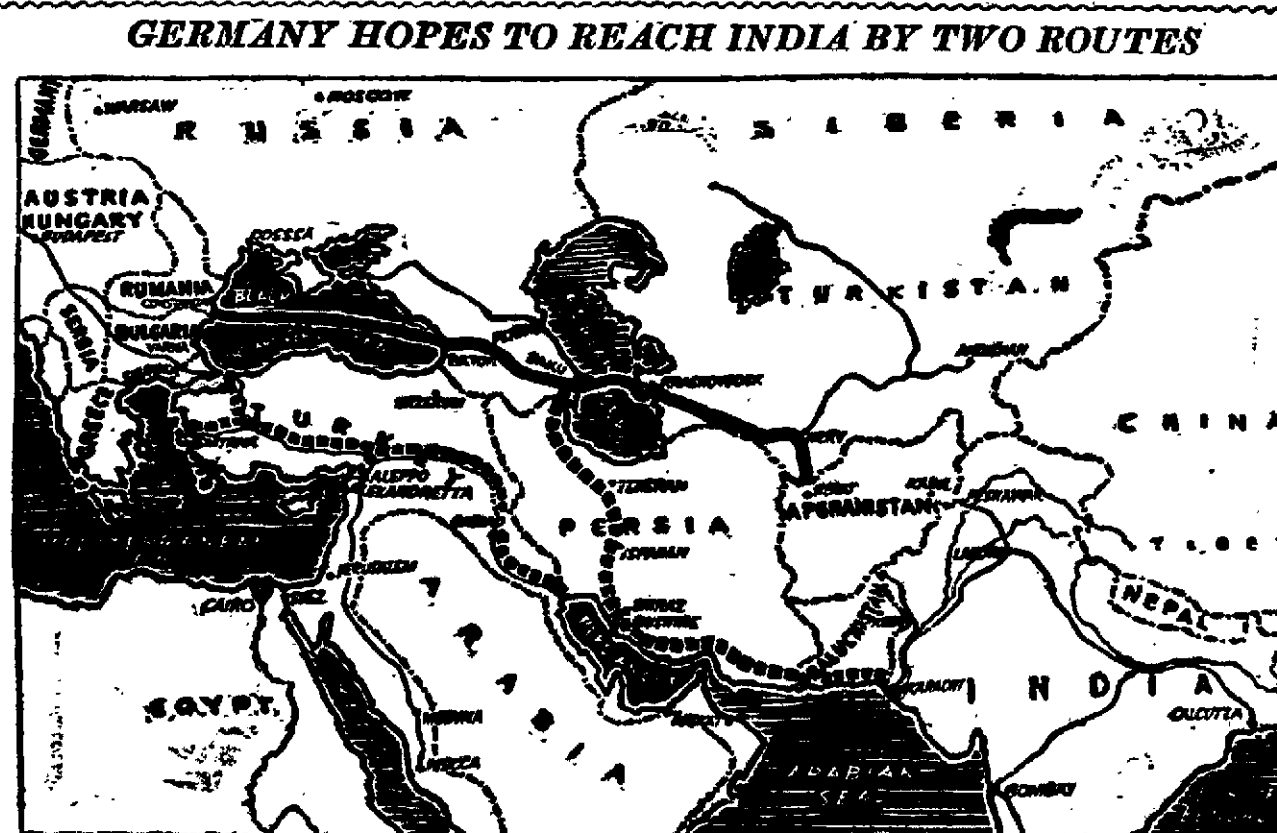

The dead man is Jacob Match, 30, one of the workmen, shot through the head. He died instantly.

The gun battle occurred when the auto bandits swooped down on the camp shortly after midnight. Forty men are employed in the gang but all were asleep with the exception of six men who were in the eating tent when the bandits appeared. The bandits entered the tent, each flourishing two revolvers. Match showed fight and was shot by one of the bandits. Two more of the six workmen joined in the battle and were shot by the bandits.

While five of the robbers covered the remainder of the construction men the others searched the pockets of the dead man, the two wounded and the other three laborers, securing two hundred and forty dollars and then escaped in their auto.

REV. MR. CREIGHTON DIED TODAY AT COLUMBUS

(Associated Press Telegram) Columbus, March 14.—Rev. Charles F. Creighton, founder of Notre Dame Wesleyan college, noted Methodist Episcopal minister, and former pastor of Epworth Memorial church at Cleveland, and of prominent churches in Buffalo and other New York cities, died at his home here this morning, following a stroke of apoplexy suffered Monday night. He was born in Somerset, O., November 30, 1849, and was a graduate of Ohio University and of Drew Theological seminary. He is survived by his wife, a son, Lieutenant Colonel Samuel Creighton of the medical corps of the regular army, now stationed at Ft. Sill, and one daughter, Mrs. B. C. MacKeye of Columbus.

OLD PRESCRIPTION FOR WEAK KIDNEYS

Have you ever stopped to reason why it is that so many products that are extensively advertised, all at once drop out of sight and are soon forgotten? The reason is plain—the article did not fulfill the promises of the manufacturer. This applies more particularly to a medicine. A medicinal preparation that has real curative value almost sells itself, as like an endless chain system the remedy is recommended by those who are in need of it.

A prominent druggist says "Take for example Dr. Kilmer's Swamp-Root, a preparation I have sold for many years and never hesitate to recommend, for in almost every case it shows excellent results, as many of my customers testify. No other kidney remedy that I know of has so large a sale."

According to sworn statements and verified testimony of thousands who have used the preparation, the success of Dr. Kilmer's Swamp-Root is due to the fact that, so many people claim, it fulfills almost every wish in overcoming kidney, liver and bladder ailments, corrects urinary troubles and neutralizes the uric acid which causes rheumatism.

You may receive a sample bottle of Swamp-Root by Parcel Post, Address Dr. Kilmer & Co., Binghamton, N. Y., and enclose ten cents; also mention the Newark Daily Advocate. Large and medium size bottles for sale at all drug stores.—Advertisement.

DO SOMETHING FOR THAT COUGH

Dr. Bell's Pine-Tar-Honey will provide ideal treatment.

A neglected cough may lead to such dangerous bronchial or lung ailments, that proper attention with Dr. Bell's Pine-Tar-Honey cannot be begun too promptly. You can absolutely depend on this remedy as it has proved effective in thousands of cases where a hacking cough, difficult breathing, inflammation or hoarseness were involved. Its balsam and healing ingredients soothe the throat, loosen the phlegm, the antiseptic properties check the cold germs and feverish or grippiness feelings are promptly allayed.

Take Dr. Bell's Pine-Tar-Honey at once, not only for quick and gratifying relief for all distressing symptoms, but to prevent serious after-effects. Still sold at 25c per all druggists.—Advertisement.

TROOPS SENT BY AGREEMENT WITH THE GOVERNMENT

(Compiled from A. P. Dispatches.)

Favorable weather on most of the western fronts has led to increased fighting, but none of the armies has yet made an attack in great strength. All apparently are keyed up to the highest pitch and the raids into opposing trenches are becoming stronger each day.

In the Champagne where the German artillery has been active the French have withstood a German attack. The effort was repulsed by the French with severe losses to the attackers. American raiding parties and American gunners both are busy on the sectors northwest of Toul and east of Lunville. The Germans do not remain in their trenches to fight the Americans, but flee to the rear lines when General Pershing's men appear.

British troops in the Ypres area, Wednesday, took the initiative and in a raid southeast of Polygon wood captured 37 prisoners and three machine guns and inflicted casualties on the enemy. The German artillery activity is intense on the Ypres sector and between Arras and Armentieres, where strong German raids earlier in the week were repulsed by British and Portuguese troops.

On the coastal sector in Palestine, north of Jaffa, the British have advanced three miles on an 11-mile front. Six villages were taken and two streams crossed in the face of Turkish resistance. A slight advance also has been made on the Jerusalem-Nablus road in central Palestine.

In the east the Germans now hold Odessa, the great Russian seaport on the Black Sea, which probably will be used either as the base for an invasion of India by way of Persia, or as the terminal of grain shipments from Russia to the central empires. Turkish-German plans in the Caucasus, which included the surrender by Russia of three Caucasian provinces, which would provide a roadway to Persia and the Caspian Sea, are opposed by the Caucasus government. Turkey had been informed that the Caucasus government does not recognize the treaty with the Bolsheviks and that it should treat with the Caucasus directly.

British shipping losses for the past week total 18 vessels, the same number as was lost in the two previous weeks. There is an increase, however, in the number of large ships sunk.

Fifteen of 1600 tons or over are reported this week in the previous two weeks the ships of large tonnage numbered 14 and 12 respectively.

German airships again raised the coast of England, Wednesday night, and a number of bombs were dropped. Tuesday night's Zeppelin raid was ineffective, all the bombs dropping harmlessly.

An important shipping agreement

has been reached between the United States and Great Britain by which Dutch ships to American, British and other allied ports are to be taken over next week for allied uses, the ship owners only figuring in the transaction.

The stowness of the Netherlands government in the long pending negotiations is explained by the dropping of the negotiations and the agreement to take the ships under international law with compensation for the owners and the safeguarding of their rights.

Berlin today announces that the German troops which occupied Odessa were sent thither "in agreement with the Rumanian government." This patently refers to the clause in the peace treaty with Rumania in which that nation was required to give all possible aid to the transport of troops of the central powers to Moldavia and Bessarabia to Odessa.

In last night's air raid on England only one Zeppelin crossed the coast, dropping four bombs on Harrogate, which damaged residence property and caused the death of five persons and the injury of nine others.

Tuesday one of the German planes was destroyed and another compelled to descend. The observer of another machine was killed. The British planes went out of action when they had exhausted their ammunition and returned safely.

An unsuccessful attack by a submarine on the British hospital ship, Quilford Castle is reported by London today. The attack was made in the British channel where the hospital ship Glenart Castle was sunk a fortnight ago with the loss of some 150 lives.

NEWARK WOMAN IS "DOING HER BIT" FOR UNCLE SAM

Mrs. J. W. Brown of East Main street who has given three sons to the service of the United States will leave this evening to visit two of them, a visit to the third being impossible as he is in Italy.

Mrs. Brown will go tonight to Norfolk, Va., for a week's visit with Charles Brown, who is in the hospital training school. Later she will go to Portsmouth, N. H., to be the guest of her son Dr. James A. Brown, who is in the navy and is stationed at Portsmouth. The third son John P. Brown is in Italy.

Mrs. Brown in connection with doing her share in giving her sons has also given a part of her home for Red Cross work, which will be continued during her absence by the women of the Lutheran church under the direction of Mrs. Barbara Braden, manager, and Mrs. Minnie Howard, president.

Mrs. Brown will be gone at least two months.

STATE FUEL CHIEF ISSUES DRASTIC MEASURES TODAY

(Associated Press Telegrams) Columbus, March 14.—Drastic regulations governing the purchase and delivery of coal were issued today by Homer H. Johnson, federal fuel administrator for Ohio, under authority of the federal fuel administration at Washington.

Until further notice no domestic consumer shall purchase or receive more coal than is required for his actual needs prior to March 31, 1918. If he has a supply on hand now, he shall receive only such additional amount as to make up his actual needs.

No person, firm, association or corporation shall directly or indirectly provide any consumer with any more coal or coke before the date specified, than is needed with the amount on hand now to meet requirements.

On and after April 1, 1918, no coal shall be sold to a domestic consumer until after he furnishes the dealer with a statement, specifying the amount of coal he has on hand, the amount of coal he has on order and the name of the person from whom ordered, the amount of coal used by him in the 12 months ending March 31, 1918, and the amount he will need prior to March 31, 1919.

COMPROMISE PLAN ARMY DRAFT QUOTA INTRODUCED TODAY

Washington, March 14.—A compromise plan to base the army draft quota on registration and liability to service, instead of the present basis of state population or provost Marshal General Crowder's plan to base it on Class I, has been framed by Representative Shallenberger of Nebraska, acceptable to Chairman Duff of the house military committee, and will be passed in the house and an effort will be made to secure President Wilson's support.

Meantime, Chairman Dent announced today that he would not, unnecessarily delay the quota bill, but would hold up the army appropriation bill until Secretary Baker's return.

The compromise proposes the following plan: "Quotas * * * shall hereafter be determined in proportion to the total number of persons registered and liable for military service * * * (in a state and credit shall be given * * * for the number of men who have entered the military service of the United States from any such state, territory, district, or sub-division thereof since April, 1917."

Woman Plans ---- Man Builds

Hardly a day passes that the housewife does not think—consciously or unconsciously—of her home as she would like to have it. At her work she thinks: the bedrooms should be lighter and more pleasant—there should be a good sleeping porch; in the kitchen things should be arranged more conveniently and built-in helps added; the dining room should be larger and have built-in features; in the evening while with the family she looks up from her work and pictures to herself how the front rooms of the house would look, if they were built and arranged according to her ideas. At last she has her plan; every room and passageway is as clear in her mind as if a blue print had been made.

When a man builds a home he will do well to counsel with his wife, for the result will be a home of comfort, step-saving convenience, beauty, and harmony.

Ask your wife about it.

You will never build a home cheaper than you can now. Lumber and other building materials as well as labor will be higher. Build now. See your lumber dealer at once.

PERMANENT AS THE PYRAMIDS

THE GETTING-WELL STAGE OF GRIP

Most Dangerous Period—
How to Gain Strength

The long pull in getting over the grip demands that all the organs of the body be kept in their best working form, not only to drive out the poison left by the grip germ, but that the patient shall regain strength as soon as possible to avoid further attacks resulting from the poisons in the system, paralyzing the greater part of the tissues of the body and the organ which they compose.

Forced nutrition is a means toward good health after the grip—as it is a means of preventing the entrance of the grip germ to the system. Father John's medicine treats grip and builds up the body because it is all pure nourishment and free from opium, morphine, chloroform or other poisonous drugs. Father John's Medicine has had 60 years' success for colds and throat troubles, coughs and sore throats, and as a tonic and body builder.—Advertisement.

CATCHING UP ON HER SEWING NOW

Lancaster Woman Able To Tend to Home Duties Again

"I work all day at the Hocking tint glass plant and then sew until 10 o'clock almost every night."

This remark, made by Mrs. Alva Roser, who lives on West Fair avenue, Lancaster, shows what a woman can do when she feels well. Mrs. Roser was telling how she had been helped by Tanlac. Only a few weeks ago Mrs. Roser was just about ready to give up. She was away behind with her sewing, and her work at the glass factory was a great task because she was so run down. Her story is told best in her own words.

"I suffered from headaches," said Mrs. Roser. "My nerves were bad. The slightest noise made me jump, and then my head would ache. For three years I couldn't sleep soundly. I often had dizzy spells and had to catch on to something to keep from falling. My appetite was poor, and nothing I ate tasted good. I seemed to have a bad taste in my mouth most of the time."

"In the mornings I usually got up tired. By 10 o'clock I felt as though it ought to be noon. In the evenings I was completely tired out."

"About six weeks ago I read a statement about Tanlac. It was made by a woman I know, and I knew she would not make a false statement. So I tried a bottle of Tanlac. Almost from the first I began to improve. My meals tasted better, and the headaches left me. However, it was not until I started on the second bottle that I noticed any great difference. Then it was that I began to take on weight. I did not feel so tired in the mornings. As I continued to take Tanlac I got stronger and stronger. I am feeling fine now. After my day's work, I take pleasure in sewing. Often I sew as late as 10 o'clock. I'm catching up with my sewing that I had to neglect so long because I was so tired I generally went to bed about half past seven."

"Tanlac has been a blessing to me. Tanlac, the new vegetable tonic, stomachic, combatant and invigorant, is being specially introduced at Erman's Arcade drug store. Tanlac may also be procured at the Evans' pharmacy, Warden Hotel block, east side square, Newark, and at the Hebron Drug Store, Hebron, O.—Advertisement.

SAYS HIS PRESCRIPTION HAS POWERFUL INFLUENCE OVER RHEUMATISM

Discoverer Tells Evans Drug Store Not to Take a Cent of Anyone's Money Until All Rheumatism Completely Vanishes. All Rheumatic Pains and Twinges.

Mr. James H. Allen suffered for years with rheumatism. Many times this terrible disease left him helpless and unable to work. He finally decided, after years of fruitless study, that no one can be free from rheumatism until the accumulated impurities, commonly called uric acid deposits, were dissolved in the joints and muscles and expelled from the body.

With this idea in mind he consulted physicians, made experiments and finally compounded a prescription that quickly and completely banished every sign and symptom of rheumatism from his system.

He freely gave his discovery to others who took it, with what might be called marvelous success. After years of urging he decided to let sufferers everywhere know about his discovery through the newspapers. Evans Drug Store has been appointed agent for Allen in this vicinity with the understanding that he will freely return the purchase money to all who state they received no benefit.—Adv.

CONFERENCE REPORT GOES TO THE HOUSE FOR CONSIDERATION

(ASSOCIATED PRESS TELEGRAM) Washington, March 14.—The conference report on the administration's bill to perfect government control of railroads, adopted by the senate last night, was in the hands of the house early today for consideration. Leaders expressed confidence that house members finally will accept the compromise on the question of rate making authority and will not insist upon the original house provision, that the power of fixing rates be delegated absolutely to President Wilson with recourse to the interstate commerce commission. The senate adopted the conference report by a vote of forty-seven to eight after it has rejected and the conference had eliminated a provision limiting power of the states to tax the carriers while under federal control. Agreement is looked for in the house on the conference compromise which limits government control to a period of twenty-one months after the war.

SECRETARY BAKER IS BUSY OFFICIAL

(ASSOCIATED PRESS TELEGRAM) Paris, Tuesday, March 12.—Newton D. Baker, the American secretary of war, was kept busy today attending conferences. In the forenoon he conferred with Arthur J. Balfour, the British foreign secretary and General Foch. Secretary Baker lunched with Generals Pershing and Bliss, his brother, Henry Baker, and a few other guests. Early in the afternoon the American war secretary conferred with J. R. Kearney, of the public information service and visited the headquarters of the American Red Cross as the guest of Major Robert P. Perkins, head of the Red Cross mission to Europe. Afterward the secretary called on Premier Viviani at his home and then saw Foreign Minister Pichon. The secretary also conferred with Oscar T. Crosby, representative of the American treasury department.

MAY CONSOLIDATE TICKET OFFICES IN MANY BIG CITIES

(ASSOCIATED PRESS TELEGRAM) Washington, March 14.—The railroad administration is taking steps to consolidate city ticket offices in scores of cities and expects to save several millions of dollars by their unification. Consolidation has been ordered from Washington, Atlanta and several other cities and investigation is under way in New York, Chicago, St. Louis, Cleveland, Pittsburgh and elsewhere.

CANADA AND U. S. SETTLE DISPUTE OVER FISHERIES

Ottawa, March 14.—The long standing fisheries dispute between Canada and the United States has been settled at least for the duration of the war, it was announced here by C. C. Ballantyne, minister of marine and naval service.

Under the new agreement, which was reached by the joint committee appointed by the two governments to consider the controversy United States fishing vessels are to be permitted to enter Canadian ports directly from the various fishing grounds, and without requiring that those ports and areas procure fresh supplies and clear again for the fishing grounds. This arrangement is reciprocal, giving Canadian fishing vessels similar privileges at U. S. ports.

WOMEN WHO FASCINATE

The art of fascination and attractiveness in women is founded on good health. Women who drag through long hours, days, weeks and sometimes months of suffering with headaches, backache and dragging-down pains soon wear the tell-tale expression of woe and misery. If every such woman would only turn to that good old-fashioned root and herb remedy, Lydia E. Pinkham's Vegetable Compound, to alleviate such ailments it would surely prove the greatest aid to health and consequent beauty that she has ever known.—Advertisement.

TO INCREASE OUTPUT

Washington, March 14.—Reduction in ship timber sizes used in wooden construction in the south was authorized by the shipping board to expedite construction.

John H. Kirby of Houston, Texas, vice-president of the Southern Pine Association has been named to take a survey of pine forests to determine the amount of material available for wooden ships as a further step to increase the output.

GERMAN PRESS UNEASY OVER DEVELOPMENTS IN FAR EAST

(ASSOCIATED PRESS TELEGRAM) Amsterdam, Wednesday, March 13.—Some sections of the German press are becoming uneasy over developments in the far east. The Frankfurter Zeitung considers that the breaking up of Russia into a number of independent states is a bad policy for Germany and urges that the greatest tact and prudence be used in dealing with the border states so that they will not "in the future sigh for a reunion with Russia and become so many thorns in Germany's side."

The newspaper adds: "Clearly, the entente policy is to use the Japanese alliance to shove Germany out of Asiatic markets for ever. Germany played their game by breaking up Russia. Germany has no more hope than ever of being able to conduct a far eastern policy except in conjunction with Great Britain and Russia. That is why a weak Russia will not contribute to Germany's ultimate welfare."

Captain von Salzmann, the military critic of the Vossische Zeitung writes: "Germany too late began to realize that the time might come when the United States and Japan would see that war is not always the most profitable way of settling differences. Germany's Russian policy has played the game brilliantly for Great Britain and the United States. In the same way Germany has increased Holland's debt of gratitude to Great Britain."

TO REMOVE HEAVY TAX ON MOTORS IN WAR WORK

(ASSOCIATED PRESS TELEGRAM) Washington, March 14.—Operation of motor trucks for transporting war materials without the payment of the high state automobile taxes was discussed at a conference between Baltimore, Philadelphia and New England and engaged in transporting essential war materials was forced to quit Maryland on account of the tax imposed.

SCHOOL GARDENS ENDORSED FOR U. S. BY THE GOVERNOR

(ASSOCIATED PRESS TELEGRAM) Columbus, March 14.—The nation wide campaign for school directed home gardens has been endorsed by Governor Cox in a letter to P. P. Claxton, commissioner of the bureau of education, department of interior at Washington.

In promising the full co-operation of the people of the state, the governor said that "Ohio war gardeners made splendid records last year and I am satisfied they will not only do as well, but will greatly exceed the work of a year ago."

J. H. Francis, superintendent of the schools at Columbus is director general of the United States school garden army. Under Mr. Francis' direction it is proposed to enlist an army of 5,000,000 boys and girls and 40,000 teachers. It is expected to produce \$250,000,000 worth of food.

SAVING OF \$800,000,000.

Washington, March 14.—Figures to show that government acquisition and operation of natural resources and the sale of products at cost as provided in the Kelly bill would save the people about \$800,000,000 annually were ready for presentation to the house interstate commerce committee at a hearing on the measure.

MEMBERSHIP INCREASED TO 5.

Washington, March 14.—The membership of the railroad administration's inland water ways advisory committee has been increased from three to five with the appointment of Calvin Tompkins, former dock commissioner of New York and a student of port facilities and M. J. Sanders, of New Orleans, manager of the Leland Stanford lines.

It is quite natural that a soldier should have to fight for advancement.

Galli-Curci sings a joyous love lyric

Marriage of Figaro—I Know Not What I'm Doing (Mozart) Amelita Galli-Curci

Victrola Red Seal Record 64743. Ten-inch, \$1

The passionate love song of the saucy young page Cherubino in Mozart's "Marriage of Figaro" is an aria that merits the interpretation of a Galli-Curci.

It is a number that is alive with melody; that gives color to every fleeting change of the emotions.

This famous coloratura soprano sings it with a sympathy that vividly portrays the eagerness and joy and tenderness surging within the heart of the love-sick youth. It is a record that will delight every lover of fine music.

Go to-day to any Victor dealer's and he will gladly play this new Galli-Curci record for you. Victors and Victorolas, \$10 to \$400.

The faith and credit of the City of Newark, Ohio, shall be pledged for the prompt payment of the principal and interest of said bonds.

Section 3. Said bonds shall express upon their face the purpose for which they are issued, and that they are issued and delivered under the direction of the Finance Committee of the Council and the City Auditor of said City, and the interest coupons attached to said bonds shall be countersigned by the City Auditor with his signature, attached thereto, or he shall have his signature printed or lithographed thereon. Said bonds shall cite the Statutes and Ordinance authorizing their issue.

Section 4. Said bonds shall be first offered at par and accrued interest to the Trustees of the Sinking Fund in their official capacity and if the Sinking Fund Trustees refuse to take any or all of said bonds at par and accrued interest, said City shall offer to the State Liability Board of Awards of the State of Ohio, such of said bonds as have not been taken by the Trustees of the Sinking Fund. The bonds not so taken shall be offered at public sale and sold in the manner provided

Section 5. Said bonds shall be first offered at par and accrued interest to the Trustees of the Sinking Fund in their official capacity and if the Sinking Fund Trustees refuse to take any or all of said bonds at par and accrued interest, said City shall offer to the State Liability Board of Awards of the State of Ohio, such of said bonds as have not been taken by the Trustees of the Sinking Fund. The bonds not so taken shall be offered at public sale and sold in the manner provided

Section 6. That the faith and credit of the City of Newark, Ohio, shall be pledged for the prompt payment of the principal and interest of said bonds.

Section 7. Said bonds shall express upon their face the purpose for which they are issued, and that they are issued and delivered under the direction of the Finance Committee of the Council and the City Auditor of said City, and the interest coupons attached to said bonds shall be countersigned by the City Auditor with his signature, attached thereto, or he shall have his signature printed or lithographed thereon. Said bonds shall cite the Statutes and Ordinance authorizing their issue.

Section 8. Said bonds shall be first offered at par and accrued interest to the Trustees of the Sinking Fund in their official capacity and if the Sinking Fund Trustees refuse to take any or all of said bonds at par and accrued interest, said City shall offer to the State Liability Board of Awards of the State of Ohio, such of said bonds as have not been taken by the Trustees of the Sinking Fund. The bonds not so taken shall be offered at public sale and sold in the manner provided

Section 9. This ordinance shall take effect and be in force from and after the earliest period allowed by law.

WILL HAVE A TEAM IN CENTRAL LEAGUE

ASSOCIATED PRESS TELEGRAM:
Terre Haute, Ind., May 14.—Terre Haute will have a team in the Central League this season. It was announced today. An association has been organized and enough stock sold to assure a berth. The team will be managed by the former major league pitcher, who will manage the club if his release can be obtained from the Columbus American Association team.

HIGH VS. 'Y' TEAM.
The High school basketball team will play a post season game with the 'Y' team Friday evening. The proceeds of this game will go to the purchase of sweaters for the High school team. In addition to this game the Senior class game will play a team picked from the faculty of the High school. Some of the foremost players of the past are among the local schools faculty and this game should prove to be a close second to the big game of the evening. The school team made a fine showing at the tournament at Delaware last week and will probably show that they are the one big team in the city.

PLEASANT VALLEY
Rev. L. C. Kemper filled his appointment here yesterday and took dinner at W. O. Beckham's. Virgil Willey of Camp Sherman spent Sunday with friends here. THE MARKETS

Iron Trade Review.

Cleveland, March 14.—The Iron Trade Review today says: Production costs are being brought strongly into the foreground of the question whether termination of the government price fixing will be a benefit or a detriment to the industry. It is apparent that producers will reach stress upon the sharp upward rise in their operating outlay in recent months. An illustration of this line of procedure is given by the detailed data to be presented by the independent producers of Lake Superior ore. Cost sheets covering the output in October and November of 5,000,000 tons of bessemer and non-bessemer ore from Mesabi underground mines show an exceedingly slender profit of 1 per cent. It is set forth that this was more than wiped out in 1918 if the 1917 price is reaffirmed. Similar estimated losses in 1918 are disclosed for Menominee, Marquette and other mines. The Marquette properties would be the only ones to return a net profit this year and that of the industry.

While generally a freer traffic movement is reported, operations still are hampered by car shortages. The production has been maintained on a high plane. Operations in the Pittsburgh and Youngstown district last week show a per cent. of production for coke ovens and open hearth plants.

AUDITORIUM.

"Alma, Where Do You Live?", taken from the play by the same name, that ran for two years in New York, comes to the Auditorium for a three day engagement beginning today. In this Miss Ruth Mac Tammany, noted opera star, is seen as Alma, and she herself appears in person, singing several numbers, one being the beautiful "Alma, Where Do You Live?" This is one of the season's novelties and should attract large crowds at every performance, for in almost every city where Miss Mac Tammany has appeared, the

"A Shine in Every Drop"

Don't Let Soap
Spoil Your Hair

When you wash your hair, be careful what you use. Most soaps and prepared shampoos contain too much alkali, which is very injurious, as it dries the scalp and makes the hair brittle.

The best thing to use is just plain mul-
sified coconut oil, for this is pure and
entirely greaseless. It softens the hair,
beats the most expensive soaps or any-
thing else all to pieces. You can get
this at any drug store, and a few ounces
will last the whole family for months.

Simply moisten the hair with water
and rub it in, about a teaspoonful is all
that is required. It makes an abundance
of rich, creamy lather, cleanses thor-
oughly, and rinses out easily. The hair
dries quickly and evenly, and is soft,
fresh looking, bright, fluffy, wavy and
easy to handle. Besides, it loosens and
takes out every particle of dust, dirt and
dandruff.

To Stop a Persistent,
Hacking Cough

The best remedy is one you can
easily make at home. Cheap,
but very effective.

Thousands of people normally healthy
in every other respect, are annoyed with
a persistent hacking or bronchial cough
year after year, disturbing their sleep
and making life disagreeable. It's so
needless—there's an old, home-made
remedy that will end such a cough
easily and quickly.

Get from any druggist "2 1/2 ounces of
Pinex" (60 cents worth), pour it into a
pink bottle and fill the bottle with plain
granulated sugar syrup. Begin taking
it at once. Gradually but surely you
will notice the phlegm thin out and then
disappear altogether, thus ending a
cough that you never thought would end.
It also promptly loosens a dry or tight
cough, stops the troublesome throat
tickles, soothes the irritated membranes
that line the throat and bronchial tubes,
and relief comes almost immediately.
A day's use will usually break up an
ordinary throat or chest cold, and for
bronchitis, croup, whooping cough and
bronchial asthma there is nothing
better. It tastes pleasant and keeps
perfectly.

Pinex is a most valuable concentrated
compound of genuine Norway pine ex-
tract, and is used by millions of peo-
ple every year for throat and chest colds
with splendid results.

To avoid disappointment, ask your
druggist for "2 1/2 ounces of Pinex" with
full directions and don't accept anything
else. A guarantee of absolute satisfac-
tion or money promptly refunded goes
with this preparation. The Pinex Co.,

"Jack Spurlock—Prodigal."
Auditorium patrons for Sunday have
another treat in store for them with
the appearance of that popular actor,
George Walsh, who is seen in the film,
"Jack Spurlock—Prodigal." This picture
was written by George Horace Lorimer
and ran in his part, "The Saturday Evening
Post," is a dime-hummer and Manager Fenberg
says if you have an ache or a pain, or
feel low in spirits and want a cure,
then be sure and see "Walsh" in his
picture. It is one of the funniest produc-
tions so far shown and perhaps you have
read it as it was printed in the "Sat-
urday Evening Post." William Fox
paid a nice sum for the rights to pro-
duce it and he has given it a great
presentation.

The story is set at Harvard
University where Jack Spurlock
is a student. One night he brings to the
dormitory a bear. The next morning
Jack is up and goes to his class in a
classroom and promptly swats the pro-
fessor on the jaw. Five minutes later
Jack is no longer a student at Harvard
and in addition is not in good standing
with his wealthy father who owns a
chain of stores. Father puts Jack in
a lowly position in one of his stores
and Jack in his zeal buys so many car-
loads of onions that the employees with
tears in their eyes go on a strike.
But Jack saves the day in an odd
way, is taken back by his father and
also wins the hand of a pretty girl.

In addition to this new Mack-
Sennett comedy, "Sheriff Nell's Tussle,"
a comedy just released, is shown and
the same "Jack Your Troubles" or if
you bring them along we guarantee
that you will leave without them.

Clara Kimball Young, popular screen
star, comes to the Auditorium Monday
and Tuesday next in her latest Select
Pictures Corp., featuring "The
Marionettes," taken from the play of
the same name by Pierre Wolff. The
feature ran at the beautiful Stillman the-
atre, Cleveland all last week and drew
capacity at every performance.

In this she was directed by that cele-
brated French director, Emile Chau-
tard, and his work is shown through-
out the picture. In the cast are the
following well known screen stars
shown: Corliss Giles (now leading
man), Francis, Mrs. Noel Win-
throp, Florence, Mrs. Helen
Simpson, Mrs. Madeline Cadeux,
Hazel Washburn, Mrs. Louise Bates,
Carey, Mrs. Barrie, Edward, Ed-
ward, Sam Phillips, John Dudley, Henry
Warwick, Henry Law, Arthur Marion
and John Gaylor. A two reel comedy,
also the Hearst-Pathe News will be
shown also.

"The Call to Arms," the second pic-
ture in the series of dramatic stories
of the Life of Lincoln and
America in the Making, presents
Benjamin Chaplin in "The Son of De-
mocracy" will be shown at the Au-
ditorium, Friday and Saturday in con-
junction with the big feature "Alma,
Where Do You Live?"

In "The Call to Arms" the stirring
problems inside the White House, a
"close-up" of the real Abraham at the
height of his career—when he declares
that the Union must not be dissolved and
calls for 75,000 volunteers to enforce his
decision, is wonderfully shown. "We
are Coming, Father Abraham," is the
resounding response, and the nation
goes into battle!

and the splendid acting abilities which
make her work so effective.

Friday and Saturday,
Harold Lockwood enacts the most
vigorous role he has had in his eight
years experience before the camera. It
Metro's production of "The Avenging
Trail," a five-act drama of the timber-
lands adapted by Fred J. Balducci
and Mary Murlilo from Henry Oyen's
novel, "Gaston Olat," which comes to
the Alhambra theatre Friday and Sat-
urday. Gaston Olat is described as a
brother to the great outdoors, as
big, as free, as lawless. With his part-
ner, Tom Pine, he descends upon
Havens Falls, a lawless village in the
heart of the Northern lumber country,
in search of excitement and adven-
ture. He meets a girl who is seeking
when upon entering the village he
finds Rose Havens struggling to free
herself from the embrace of Lefty Red,
a notorious character. He compels her
to release the girl, is challenged to
fight, accepts the challenge, and after
a bitter struggle returns the victor.

Sunday,
William Russell, one of the best
known young romantic actors in Amer-
ica and a favorite of the screen, lan-
owns two fast cars of the racing type
and both of them have been in the
ditch half a dozen times. Mr. Russell is
a little contemptuous of bad roads and
when he is going fifty miles an hour
he sometimes tries to jump a piece of
bad road instead of going around it.

While the young athlete star was
working on the production of his new
American-Mutual play, "The Midnight
Trail," he was visited by two profes-
sional friends from New York, Jimmy
Hutchins and Tom Shaw of Studebaker sales de-
partment. Both Mr. Hutchins and Mr.
Shaw accompanied Russell in one of
his parabolic flights at the "happi-
turn" on the Santa Barbara shell road.
Both men now sleep with their fingers
crossed.

GEM,
Violet Mersereau, one of the screen's
prettiest and most popular stars, will
be seen at the Gem theatre on Friday
in "The Girl by the Roadside." Varick
Vanard's entertaining story of love
and adventure, which has been adapted
for the screen by Bluebird photoplays
Miss Mersereau as Judith Ralston has
a role which is admirably suited to her
unusual talent as a versatile actress.

DON'T SUFFER WITH NEURALGIA

Use Soothing Musterole

When those sharp pains go shooting through your head, when your skull seems as if it would split, just rub a little Musterole on your temples and neck. It draws out the inflammation, soothes away the pain, usually giving quick relief.

Musterole is a clean, white ointment, made with oil of mustard. Better than a mustard plaster and does not blister.

Many doctors and nurses frankly recommend Musterole for sore throat, bronchitis, croup, stiff neck, asthma, neuralgia, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or limbs, sprains, sore muscles, bruises, chilblains, frost-bitten feet—cold, the chest (it often prevents pneumonia). It is always dependable.

30c and 60c jars, hospital size \$2.50.

Will Not Blister

Ah! That's the Spot

Sloan's Liniment goes right to it. Have you a rheumatic ache or a dull throbbing neuralgic pain? You can find a quick and effective relief in Sloan's Liniment. Thousands of homes have this remedy handy for all external aches, because time and time again it has proven the quickest relief.

So clean and easy to apply, too. No rubbing, no stain, no inconvenience as in the case with plasters or ointments. If you once use Sloan's Liniment, you will never be without it.

Generous sized bottles, at all druggists.

Sloan's Liniment
KILLS PAIN

Sloan's prices not increased 25c. Jar, 25c.

STOP ITCHING ECZEMA

Penetrating, Antiseptic Zemo Will Help You

Never mind how often you have tried and failed, you can stop burning, itching eczema quickly by applying a little zemo furnished by any druggist for 35c. Extra large bottle, \$1.00. Healing begins the moment zemo is applied. In a short time usually every trace of eczema, tetters, pimples, rash, blackheads and similar skin diseases will be removed.

For clearing the skin and making it vigorously healthy, always use zemo, the penetrating, antiseptic liquid. It is not a greasy salve and it does not stain. When others fail it is the one dependable treatment for skin troubles of all kinds.

PENNANT RACE BY SAILORS OF FLEET

Chicago, March 14.—Sailors of the Atlantic fleet are going to stage an American and National League pennant race of their own in France this summer. President B. H. Johnson of the American League was advised of the baseball venture across the sea in a letter today from Commander Lehigh, commander of an American squadron on duty in European waters.

The American League, President Johnson, announced, will charter the eight ships of Commander Lehigh's squadron with baseball outfits.

"The game is receiving a great deal of attention in France," Commander Lehigh wrote. "All of the service organizations have teams and a great deal of rivalry has sprung up among the various units. Most of the ships have ex-college players on board so we ought to have some very good teams."

SELECTED WINNERS FROM 50,000 IN ESSAY CONTEST

Newark school children and teachers will remember the essay contest held in January upon the subject, "Why Every Family Should Own Its Own Home." The contest was under the auspices of R. B. Johnson, owner company, and first and second prizes were offered to pupils of the seventh, eighth, and high school grades.

Paul Stull, of Dr. C. H. Stull's, won first prize in the 7th grade, Ralph Allen, son of Mrs. Linnie Allen, first prize in the eighth grade, and Elizabeth Keyes, daughter of Councilman Keyes, first prize in the high school. These three prize winning essays were entered in a nation-wide contest carried on by the American Lumberman, and Elizabeth Keyes has won second prize of \$30.00. Ralph Allen's and Paul Stull's essays both were both among the thirty to receive honorable mention. The American Lumberman says that not fewer than fifty thousand essays were written, scattered through sixteen states. Miss Florence Johnson, of English, Iowa, winning first prize; Miss Keyes, Newark, second; and Ruth Davis, Oneonta, N. Y., third.

The judges in this national contest were Hon. F. C. Blair, Hon. A. M. De-Young, and Hon. F. B. Pearson, State Superintendents of Public Instruction in Illinois, Iowa, and Ohio, respectively. The American Lumberman in the March issue contains a full account of the contest, with cuts and the prize winners and those receiving honorable mention. Newark is certainly proud to have three pupils in this list.

The local judges who picked the Newark prize winners were E. C. Wright, Don D. Tullis, and A. S. Mitchell.

EFFICIENCY EXPERT GIVES GOOD ADVICE IN ADDRESS

R. E. Palmer, efficiency expert of the Emerson Institute of New York City, spoke at the high school auditorium last evening on "Efficiency and Your Job." The one big thing in every walk of life is the ability to think for yourself and to recognize that your success is at hand," he stated.

"We must all have the proper mental attitude toward the work in which we are engaged, and we must have faith in the man for whom we are working or we will cheat ourselves and our employer, but if we always do our best we will succeed," he said.

In speaking of the manner in which a man operates his business, Mr. Palmer said that he should always have his plans laid for the future and should never fail to keep records of past dealings. Always keep your work on scheduled time and arrange the hardest tasks of the day first. Above all things, when you are in business for yourself use good common sense and learn to manage yourself before managing others.

Mr. Palmer hopes to establish in the near future a series of lectures in this city and to carry on the work here and has been going on in other cities of this state.

The lecture was given under the auspices of the Newark Chamber of Commerce.

NEWARK TOWNSHIP BOARD HEALTH INSPECTS SCHOOLS

The township board of health, consisting of William Priest, William Gutridge and Mac Mossman, Dr. J. W. Hornby, health officer, and special guest, Prof. O. C. Larson, visited and carefully inspected the following township schools last Wednesday: Cedar Run, taught by Miss Meyer; St. John's, taught by Mrs. Cowley; Fulton, taught by Mr. Clark; and Granville road, taught by Miss Norpell. The teachers and pupils of these schools are to be congratulated because of their fine condition, considered from every viewpoint.

Prof. Larson gave an eloquent and forceful address to each school—addresses that will be prolific of good results in time to come, and the pupils in every school entertained the visitors in a manner that won their admiration with inspirational patriotic songs.

The other schools of the township will be visited at no distant date.

BETTER GET IN LINE AND ORDER SUPPLY OF COAL

The few people who have returned the cards to the fuel administrator have the impression that these cards will serve as orders for the next winter's coal, but this is not true, as they serve only to give the local administrator an estimate of the amount of coal needed for this city and county for the coming winter. Even though you have filled out your card and returned it to the administrator you will have to order the coal from the dealer.

According to those in touch with the local situation the early buyer will be the wise one and those who delay in placing their orders may expect the same difficulties as were encountered during the past few months.

A FINE OPPORTUNITY NOW FOR ENLISTMENT SPECIAL SERVICE

Charles E. Homan, 29 Seventh street, enlisted as an apprentice seaman Wednesday afternoon at the recruiting station in the Memorial building and was put on the waiting list and will probably be called about April 1.

There are a number of positions open in the naval reserve for mechanics of all kinds, such as electricians, boiler-makers, molders, firemen, musicians, etc. This is an excellent opportunity for men affected by the draft for after giving in their application they are clear of any further connection with it.

Recruiting officer Keck will be in Newark Tuesday and Wednesday of each week until further notice.

NEWARK NURSES IN FRANCE HAVE REPORTED FOR DUTY

Mrs. John Homan of Greenwood avenue, Newark, on Wednesday received a cablegram announcing the safe arrival in France of her daughter, Miss Mary Homan and Miss Elizabeth Sharkey of Zanesville.

Both of the young women have been nurses at the City Hospital here for the past few years and are well known to a large circle of friends, who will be interested to learn of their arrival in France, where they were sent by the Cross nurses, leaving Zanesville, February 9.

CHIROPRACTIC

If you are in poor health—if you are one who has suffered for years with some chronic ailment, and if you really want to get well, then come to my office and learn more about Chiropractic and what it will do for you. I have been in Newark but a short time, yet I already can refer you to many patients who have taken my Chiropractic adjustments and gotten results. People who are now Boosters for Chiropractic.

ELBERT HUBBARD OF THE NEW SCIENCE OF HEALTH.

Mr. Hubbard says: "The Chiropractors are not Doctors of Medicine, but Doctors of Health, and master mechanics of the Central Nervous System of the human body; from them we get a science of healing which is adding greatly to the welfare, the happiness, and the well-being of the world."

Ex-Osteopath says of Chiropractic: "Dr. Edwin S. Boutt of Pittsburgh says: 'It is greater than either osteopathy or medicine and will eventually lead the field.'"

My office is centrally located—easy to find—ground floor—right at intersection of Arcade.

THE COURTS

Juvenile Court.

A young lad, giving his name as
Reuben Perkins, caused the officers
of the juvenile court quite a little
unnecessary trouble by the number
of conflicting stories he told con-
cerning himself. He was picked up
by the police, Monday night, and
turned over to the juvenile court for
investigation. He told Officer
Dwyer that he was from near Lan-
caster and was looking for an uncle
in this city who lived near Twenty-
first street. He was taken out there
but no uncle could be found. Of-
ficer Dwyer then notified the officers
of the Lancaster school at Lancaster,
and today Chief Probation Officer
Shaffer and Officers Cline and Neif,
of the school, came to Newark to
make an investigation. It was found
that he did not belong in Lancaster,
but told the officers he was from
Somerset, Ky.

When first questioned he pretend-
ed he was deaf and dumb, but was
finally caught in his deception by
answering a question asked by Of-
ficer Dwyer.

As no charge was filed against him
the judge advised the juvenile officer
to find a job for the boy and he was
released.

Decree Granted.
The divorce case of William R.
Donahue vs. Ida Donahue was heard
Wednesday in common pleas court
and the decree was granted the
plaintiff on the grounds set forth in
the petition.

Marriage Licenses.
William Ray Donahue, shoemaker,
Newark; Miss Ethel M. Parkinson,
clerk, Newark. Rev. L. C. Sparks
named to officiate.

Divorce Petition.
A petition for divorce was filed
Wednesday in common pleas court
by Roena F. Willey against Howard
Willey. They were married on April
2, 1932, and are the parents of one
child—Lester, aged 12.

The plaintiff says that for the past
three years the defendant has been
a habitual drunkard and during that
time has refused to contribute to her
support. A separation now exists
between the parties and for the past
three years they have not lived as
husband and wife.

Why Zinc is "Jack."
Have you often wondered why zinc
is called "Jack" and Joplin is called
the "town that Jack built"? So have
we. Here is the answer, from the
American Lead and Zinc Journal: The
question is asked why zinc blende is
called "Jack" in the Joplin region. Old-
time miners of this region first called
it "Jack" in derision in the early days
of lead mining, when a dark substance,
which was unknown to them, was
found in large quantities in connection
with lead which they were then min-
ing in the camps of Joplin, Granby and
Galena. This dark substance was an
impediment to the mining of lead and
was much despised by the early min-
ers, who did not appreciate its value
and did not know it was zinc blende of
a high grade. It was then called
"Jack," or "black Jack," and the name
"Jack" has clung to every kind of zinc
blends ever since.

The Truth.
The truth is that something every-
body wants on his side when trouble
comes. You may not be overly well
acquainted with it before you need it,
but that makes no difference. Truth
is the thing that lasts when other
things vanish. Those who know
claim that "truth is conformity of re-
presentation to fact." There is more
or less of it in the world. Its pre-
valence depends upon the company you
keep. In some circles men try to keep
away from truth because they are
aiming at unjust gains. Some throt-
tle personal opinion to favor before
reputed greatness. They are not con-
cerned about what they are. It's what
they want to be that keeps them think-
ing. And their thinking is purely of
gain. To handle money, to exercise
authority, to be looked upon as suc-
cessful seems to be their chief goal.
But if they only knew it the truth is
the best way to attain it.

The Hicks Boys' Failure.
"Many a man has established him-
self in a modest way in his chosen
business and by frugality and indus-
try built it up to enviable proportions,"
said the Old Coder. "And then when
he took his sons in with him the boys
grew chesky over what they thought
they could do if the old man would
only get out of their way. Sometimes
they made good and upon other oc-
casions they did not. As long as the Rev.
Tri H. Hicks, manufacturer of plain
and fancy weather, was in the busi-
ness, we knew exactly what to expect.
But look at the sort of weather we
have been having lately. The Hicks
boys are falling down badly since the
old man dropped out."—Kansas City
Star.

Keep Promises Made Children.
If failure to keep promises is evil in
the business and social world at large,
it is calamitous in the home. One can-
not be too careful about making prom-
ises to children. None should be light-
ly made, and when made, they should
be scrupulously kept, even in seem-
ingly unimportant things. If one would
have children truthful, one must one-
self first be true. They should ear-
ly learn the value of truthfulness in
promises. One has no right to promise
a thing to rid oneself of importunity.
When one is not ready to promise, one
should say so and stick to it. No
matter is unimportant that has a bear-
ing on truthfulness. It does not take
long for a child to learn when a parent
breaks promises foolishly or lightly.
Then such a child ceases to respect a
parent's word in anything. Slow to
make a promise, but swift to keep one,
should be an ideal for all.—Milwaukee
Journal.

JUDGE FULTON SUSTAINED BY THE COURT OF APPEALS

The Judges of the Court of Appeals handed down decisions late Wednesday afternoon in cases submitted during the present term as follows: re-affirming Judge Fulton in each case: Charles N. Richards, plaintiff in error to reverse a judgment of conviction for arson. Stay of execution of sentence allowed; bond fixed at \$1,000. Willis A. Robbins and Edward Kibler, administrators vs. David H. Pleg, et al.; a suit brought to construe the will of the late Sidney Smith, deceased. The court affirmed the decision of the probate court. Ella Smith, as decedent, legatee of Sidney Smith, deceased. Plaintiffs instructed accordingly. James, et al. vs. Estella Swan, et al. A proceeding in error to reverse the judgment of the common pleas court in affirming the judgment of the probate court in making an order of appointment of administrator of the estate of the late S. L. James. Judgment of common pleas court and probate court affirmed. Robert W. Smith vs. Frank Wine, et al. Judgment for defendant and petition dismissed, affirming common pleas court. The suit involved the construction of a contract for cutting timber.

OH! THAT AWFUL BACKACHE IT'S YOUR KIDNEYS

An unhealthy body, and the unhap-
piness and misery which follow, may
be prevented by ordinary judgment
and care. Keep your stomach and kid-
neys in shape and you will have good
health. The kidneys' work is to throw
out the poisonous matters which enter
the body. If they perform this work
regularly and automatically the other
organs will take care of themselves.
If the conditions of the bladder or
kidneys are indicated by nervousness,
sleeplessness, that tired, worn-out feel-
ing, dizziness, nausea, backache, lum-
bago, rheumatism, pain in the lower
abdomen, many so-called "female trou-
bles," severe pain and discomfort when
urinating, bloody, cloudy and stringy
urine, too frequent or suppressed pas-
sages. All these are nature's signals
to warn you of diseased kidneys or
bladder, which may lead to fatal
Bright's disease.

Don't wait until the danger is upon
you. Go to your druggist at once. Get
a trial box of GOLD MEDAL Haarem
Oil Capsules. They are made of the
pure, original, imported Haarem Oil,
the kind your great grandfather used.
About two capsules each day will keep
you toned up and feeling fine. Money
refunded if they do not help you. But
remember to ask for the imported
GOLD MEDAL brand. In sealed pack-
ages.—Advertisement.

PRISON COMPANIONS MUST BE CONGENIAL

"In again and out again" Mabel
Rice's life seems to be but a series of
bidding farewell to the county jail
and bidding it welcome the same
day. This time Mabel's sojourn may
be a bit longer.
She was arrested yesterday charged
with her old fault of drunkenness,
and with stealing a pair of shoes from
Mrs. Margaret Franklin in East Rail-
road street. She was fined \$5 and
costs in police court for being drunk
and will be tried on the theft charge
later.
"Granny" Elben, another regular,
was again taken in tow and will work
out a fine of \$5 and costs.

ALL LOCAL CONTRACTORS INVITED TO JOIN THE NATIONAL ASSOCIATION

A meeting of local contractors was held in the builders' exchange, 181-19 North Second street, last evening for the purpose of hearing Thomas C. Morgan, an organizer of the National Contractors' Association, with headquarters in New York City, speak on the subject of organization and taking action on a new plan which he presented.

Mr. Morgan, a gentleman of years of experience, told of a number of Ohio cities which have joined the national association and spoke of the advantages to be secured by such action. He then spoke of the plan whereby contractors stimulating new work will receive compensation whether contracts are received or not.

Definite action was not taken by the contractors last evening, but was deferred until Tuesday evening, 61 next week at which time it is hoped that every contractor in the city will be present.

MEETINGS BEGIN AT SECOND PRESBYTERIAN

The evangelistic meetings of the First Presbyterian church began Wednesday evening at 7:30 o'clock and will continue every evening at that hour until April 1.

Rev. Calvin Hazlett has general charge of the meetings and Ralph E. Mitchell is the director of the large chorus. Mr. Mitchell is from Ironton, O., and was formerly chorus director of the Lyceum meetings.

Rev. Mr. Hazlett took as his subject last night, "The Need of a Revival," and tonight and Friday night Rev. J. H. Lawther, Belaire, O., will deliver the sermons.

TRIAL OF WOMAN FOR AN ATTEMPT AT BLACKMAIL

Atlanta, Ga., March 14.—Mrs. Margaret A. Hirsch went on trial here today on a charge of attempted blackmail of Asa G. Candler, millionaire mayor of Atlanta. Mrs. Hirsch was indicted jointly, February 14, with J. W. Cook, was convicted and sentenced to serve a prison term of a year and a day and to pay a fine of \$1000.

Mrs. Hirsch went on trial with the right of her counsel to question witnesses as the jury is drawn, as to their prejudices. This permission was accorded the defendant after Mrs. Hirsch's motion for a change of venue had been denied. Mrs. Hirsch alleged that she would not get a fair trial here.

The defense has subpoenaed more than 20 witnesses. The charge for which Mrs. Hirsch is on trial is the outgrowth of a visit she is alleged to have made to the mayor's private office early in February.

GRANVILLE

(Special to the Advocate.)
Granville, March 14.—There are signs of spring in the air, and prospective hostesses are looking for a fair day Saturday to celebrate the most brilliant festival given here in twelve years. Everything points to an artistic success of the most gratifying nature. Wagner's most popular opera, "Tannhauser," will be sung under wonderful auspices for it is permitted to few local choruses to be accompanied by one of the finest orchestras in the world, with metropolitan singers in two of the leading roles. Amposito, soprano, as "Elizabeth," and Andreo Sarto, baritone, as "Wolfram," are distinct attractions for the afternoon concert. Even greater pleasure to Granville people who know the quality of his work is anticipated in the role of "Tannhauser," Miss Smith, soprano, as "Venus," and Belford Cheadle as "Landgrave," will uphold the credit of local talent and the Engstrom chorus is fully up to form under direction of K. H. Eschman. It will be short-sighted policy for any one in the community to miss these unusual events of a life time. At any rate they are both equal to the best to be found in the country, and this thought, this discomfort and added expense of a trip to Columbus—or New York—or Boston, Consul W. P. Ullman, phone 8751. He can advise you as to seats.

From the public school comes the notice of varied activities: Mrs. Charles H. White is giving a series of lectures in the seventh grade on the "Institutions to be used in the orchestra, preparatory to the symphony concert by the New York Philharmonic orchestra on Saturday. She also gave a talk in the high school chapel this morning along the same lines.

A French class is to be organized in the eighth grade on Friday. The fourth, fifth and eighth grades had no tardiness during the week's period, and in consequence were excused an hour early on Friday. The sophomore class had excellent record of tardiness. The percentage of attendance in the first grade was 92.5. High school freshmen 97.5 and the seniors, 97.1.

Dr. Cockayne is to deliver an address on Saturday morning at the meeting of County Thruway held in Newark on the topic "Americanism." Thrift Stamps are being bought nearly every day at the office.

The seniors were the first to complete their quota for the high school library loan.

An account of the war conditions the high school seniors are talking of eliminating commercial invitations and other unnecessary items of extravagance.

Clude Haffey has entered the Alexandria school.

Miss Carrie Thrall of Indianapolis, who spent a few days at the home of her brother and sister, Mr. and Mrs. L. A. Austin, has returned home.

Mr. and Mrs. J. M. Hiner of Newark expect to be among the Festival visitors Saturday afternoon and evening, summer guests of Mr. and Mrs. W. J. Livingston.

Dr. and Mrs. J. J. McKinnon will entertain a few friends informally at the conclusion of the senior concert Saturday night for the pleasure of their home-coming. Mrs. Harris H. McMahon of Columbus and Mrs. Haneson of New York city.

Miss Elizabeth (Gibson) of Boston and Miss Margaret (Gibson) of New London, Conn., arrived last night for the funeral of their father, Dr. S. S. Gibson, which will be held on Friday at 10 o'clock in the Baptist church.

An item of intense interest to Denison people ever where comes in a letter to Miss Scollen from a hospital in London written by David Swan, comrade and dear friend of "Mike" O'Brien, who lost his life in the cause of freedom last fall. "I do not believe you know the writer," says "that Mike" was decorated with the military medal, and furthermore that he had decorated each decoration a hundred times over.

NOT A PARTICLE OF DANDRUFF OR A FALLING HAIR

Save your hair! Double its beauty in just a few moments.

25-cent "Danderine" makes hair thick, glossy, wavy and beautiful.

Within ten minutes after an application of Danderine you can not find a single trace of dandruff or falling hair and your scalp will not itch, but what will please you most will be after a few weeks' use, when you see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp.

Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them, its exhilarating, stimulating and life-producing properties cause the hair to grow long, strong and beautiful.

A little Danderine immediately doubles the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance; an incomparable lustre, softness and luxuriance.

Get a small bottle of Knowlton's Danderine from any drug store or toilet counter, and prove that your hair is as pretty and soft as any that it has been neglected or injured by careless treatment—that's all—you surely can have beautiful hair and lots of it if you will just try a little Danderine.

You Can't Brush Or Wash Out Dandruff

The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

Do this at night, and by morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop at once, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

You can get liquid arvon at any drug store. It is inexpensive and never fails to do the work.

OUR OUTGROWN RAILROADS.

We have outgrown our railroad. There is no other way to express it. All kinds of traffic has outrun railroad development, with the result today there is congestion everywhere, on all lines.

It has not been wholly due to the war. The truth is, the railroads have not kept pace with the growth in other lines, and we would have had congestion even if we had not been plunged into the war.

If every single-track railroad in this country were double-tracked, if every four-track road were turned into a four-track affair, and if the few four-track roads were to add four more tracks to the system, it would just about be adequate, provided the rolling stock were also doubled.

It is getting to the point where one can not depend upon the railroads to move freight. Millions and millions of tons are waiting to be transported. Other millions of tons are being handled by motor truck.

The automobile manufacturers no longer depend upon the railroads. Automobiles are leaving the factories under their own power and trailing hundreds and even thousands of miles across the nation.
